**What do you love most about driving sport?**

*Bartosz: What I love about driving is the connection with my horse and the fact that we understand each other without words. I also enjoy the challenge because there is always something to improve and every competition teaches me something new.*

**What does being part of the Polish Youth Driving Team mean to you?**

*Bartosz: Being part of the Youth Polish Driving Team is something I am really proud of. It shows that all the hard work, early mornings and difficult moments are worth it. It is also a great opportunity to learn from experienced people, meet other talented drivers and represent Poland doing what I love.*

**What inspires you to keep training and improving every day?**

Bartosz: My biggest motivation is seeing progress even in small things. When a training session goes better than the previous one or when my horse and I understand each other a little more - it gives me motivation to keep working.
